Some of these sprang rapidly into prominence and then disappeared quite as rapidly into the dump-heap. Others persisted for several years, but were finally laid away by their friends with evident reluctance. The one device which has had an uninterrupted success since the invention by Westing-house is the air brake, and today this type of brake is almost exclusively used on both railroad and electric trains. The essential quality of any braking device is reliability. It must work in season and out, night and day, in good weather and bad, in excessive heat or cold - in fact, nothing under any circumstances must interfere with its efficient action for the lives of many passengers and the safety of thousands of dollars worth of property...
